

CANTILEVER COFFEE TABLE

An exploration into visual dichotomies, the Cantilever Coffee Table finds balance within the opposition of forms and tones.

Each leg contains two finger-jointed tenons which give the legs individual strength. The bars connect the strength of the two legs and allow them to stabilize each other. Altogether, the elements create about 32 sq. in. of usable surface area which can withstand up to about 120lbs. of weight.

Ash wood with India ink stain
33"W x 33"D x 15.25"H
